About Silicon Border

Silicon Border is a 10,000-acre high-technology science park catering to the specialized needs of the semiconductor process technology and other capital-intensive technology sectors. Planned for development along the U.S.-Mexico border in Mexicali, Silicon Border enables a cost-effective and competitive manufacturing alternative in North America for emerging and global companies. Improving upon the world's leading technology parks, the park's 15 square miles of world-class infrastructure and education will support the stringent requirements of the semiconductor, flat panel display, solar, aerospace and biotechnology industries. More information about Silicon Border is available online at www.siliconborder.com.
